News Release

TC Energy affirms 0.70 share-for-unit exchange ratio in definitive agreement to acquire all outstanding common units of TC PipeLines, LP

CALGARY, Alberta – **February 22, 2021** – News Release – TC Energy Corporation (TSX, NYSE: TRP) (TC Energy) today responded to a unitholder’s recent assertion of the inadequacy of the exchange ratio in the definitive agreement to acquire all of the outstanding common units of TC PipeLines, LP (NYSE:TCP) (TCP or the Partnership) not beneficially owned by TC Energy or its affiliates.

The exchange ratio of 0.70 of a TCE common share for each TCP common unit represents a 20.8 per cent premium to the TCP closing price before the original offer as of October 2, 2020. The exchange ratio was unanimously approved by a conflicts committee composed of independent directors of the Partnership’s general partner, after consultation with its independent legal and financial advisors.

“We affirm the exchange ratio and we are confident that the meaningful transaction premium presents the best opportunity for TCP’s unitholders to maximize value. **TC Energy will not increase the exchange ratio or vary any of the terms of the merger. If the merger is not completed, the Partnership will remain a publicly traded limited partnership,**” said Francois Poirier, TC Energy President and Chief Executive Officer.

TC Energy reminds unitholders of the upcoming special meeting of unitholders, which will be held at 10:00 a.m. (Central Time) on February 26, 2021 to vote on the merger. Common unitholders who have not already submitted a proxy are encouraged to do so as soon as possible and should contact Morrow Sodali, the Partnership’s proxy solicitor, by calling toll-free at (877) 787-9239.

These forward-looking statements generally include statements regarding the potential merger between TC Energy and TC PipeLines (the "Pending Merger"), including any statements regarding the expected timetable for completing the Pending Merger, the terms on which the Pending Merger would be effected, the ability to complete the Pending Merger, the expected benefits of the Pending Merger, projected financial information, TC Pipelines' structure and future opportunities, and any other statements regarding TC Energy's and TC PipeLines' future expectations, beliefs, plans, objectives, results of operations, financial condition and cash flows, or future events or performance. These statements are often, but not always, made through the use of words or phrases such as "anticipates," "expects," "intends," "plans," "targets," "forecasts," "projects," "believes," "seeks," "schedules," "estimates," "positions," "pursues," "may," "could," "should," "will," "budgets," "outlook," "trends," "guidance," "focus," "on schedule," "on track," "is slated," "goals," "objectives," "strategies," "opportunities," "poised," "potential" and similar expressions. All such forward-looking statements are based on current expectations of TC Energy's and TC PipeLines' management and therefore involve estimates and assumptions that are subject to risks, uncertainties and other factors that could cause actual results to differ materially from the results expressed in the statements. Key factors that could cause actual results to differ materially from those projected in the forward-looking statements include the ability to obtain the requisite Partnership unitholder approval; uncertainties as to the timing to consummate the Pending Merger; the risk that a condition to closing the Pending Merger may not be satisfied; the risk that regulatory approvals are not obtained or are obtained subject to conditions that are not anticipated by the parties; the effects of disruption to TC Energy's or TC PipeLines' respective businesses; the effect of this communication on the price of TC Energy's common shares or TC PipeLines' common units; the effects of industry, market, economic, political or regulatory conditions outside of TC Energy's or TC PipeLines' control; transaction costs; TC Energy's ability to achieve the benefits from the Pending Merger; and the diversion of management time on transaction-related issues. Other important factors that could cause actual results to differ materially from those in the forward-looking statements are: the impact of downward changes in oil and natural gas prices, including any effects on the creditworthiness of shippers or the availability of natural gas in a low oil price environment; the impact of litigation and other opposition proceedings on the ability to begin work on projects and the potential impact of an ultimate court or administrative ruling to a project schedule or viability; uncertainty surrounding the impact of global health crises that reduce commercial and economic activity, including the recent outbreak of the COVID-19 virus, and the potential impact on the respective businesses of TC Energy and TC PipeLines; the potential disruption or interruption of operations due to war, accidents, political events, civil unrest, severe weather, cyber threats, terrorist acts, or other natural or human causes beyond the parties' control; and the potential liability resulting from pending or future litigation. Other unpredictable or unknown factors not discussed in this communication could also have material adverse effects on forward-looking statements. TC PipeLines assumes no obligation to update any forward-looking statements, except as required by law. Readers are cautioned not to place undue reliance on these forward-looking statements that speak only as of the date hereof.
